

Built using the **MERN stack**, ensuring scalability, responsiveness, and security.

TEXT UTILS

Developed a versatile **Text Utils** web application to perform various text-processing operations efficiently. The tool enhances productivity by providing quick and easy text transformations. Key features include:

- **Text Formatting:** Convert text to uppercase, lowercase, or capitalize sentences.
- **Word & Character Count:** Instantly analyze text length for readability and SEO optimization.
- **Whitespace & Extra Space Removal:** Clean up unnecessary spaces for better text presentation.
- **Dark Mode Support:** Enhances user experience with a customizable theme.
- **Real-Time Preview:** Instantly see text modifications as you type.

Built using **React.js**, ensuring a smooth, interactive, and responsive user experience.
